

111060

TO: Board of Acquisition and Contract

FROM: Hugh J. Greechan, Jr., P.E.
Commissioner of Public Works and Transportation

DATE: April 29, 2025

SUBJECT: Resolution for Authority to Advertise
Contract No. 10-532
Slope Stabilization of North Yonkers Trunk Sewer
Yonkers Joint Plant Districts
Dobbs Ferry, Hastings, and Yonkers, New York

The 2025 Capital Budget contains funds for the above referenced project.

The work under this contract consists of providing all necessary labor, material and equipment required to rehabilitate the North Yonkers Trunk Sewer, including but not limited to, stabilization of the existing earthen slopes where the trunk sewer is buried. In the past, erosive storm water flows off the steep slopes have exposed the sewer pipe and uprooted trees uphill of the trunk sewer undermining, exposing and damaging the sewer, resulting in the release of raw sewage to the surrounding areas. In order to prevent future damage, stabilizing measures such as minor tree removal, small retaining walls and granular fill over the exposed pipes within the existing Right-of-Way will be implemented to help mitigate future exposure and undermining of the pipes.

The objective of this project will be the rehabilitation and stabilization of the earthen slopes covering the North Yonkers Trunk Sewer as required under the Capacity Assurance, Management, Operation and Maintenance (CMOM) Program to insure the environmentally compliant operation of the County's sewage collection system. The Program requires the existing trunk sewer be inspected periodically and any deficiencies corrected in order to prevent unnecessary damage to the collection system, as well as the surrounding environment.

This contract is in the public's best interest because it effectuates long-term maintenance and repairs as required by the CMOM Program for this section of trunk sewer avoiding potential adverse environmental impact to the surrounding properties and the Hudson River, thereby promoting public health policies and laws.

The department will track scheduling and accomplishments by the contractor and perform on-site inspections to ensure the successful completion of this project.

RESOLUTION

Upon communication from the Commissioner of Public Works and Transportation, be it

RESOLVED, that the Commissioner of Public Works and Transportation be and he hereby is authorized to solicit bids by public advertisement on the following contract:

CONTRACT NO. **10-532**

Slope Stabilization of North Yonkers Trunk Sewer
