TO: Honorable Members of the Board of Acquisition and Contract

FROM: Leonard G. Townes, Commissioner
Department of Social Services

SUBJECT: Resolution authorizing the County of Westchester to enter into an agreement with Family Ties of Westchester, Inc., for the provision of the "Every Kid Counts" program which serves low and moderate risk families with Child Protective Services or Cross Systems Unit involvement, for the period from January 1, 2026 through December 31, 2026 for an amount not to exceed \$338,126.00.

Authorization is requested for the County of Westchester (the "County"), acting by and through its Department of Social Services (the "Department"), to enter into an agreement (DSS6012-26; the "Agreement") with Family Ties of Westchester, Inc. ("Family Ties"), for the provision of the "Every Kid Counts" program to connect at risk families to services that improve family functioning and reduce the number of families at risk of subsequent Child Protective Services ("CPS") reports and/or foster care placements, for the period from January 1, 2026 through December 31, 2026 for an amount not to exceed \$338,126.00, to be paid on a monthly basis pursuant to an approved budget and subject to appropriation.

Family Ties of Westchester's Every Kid Counts program is a community based, short-term, intense family focused wraparound program that was developed to prevent child abuse, and neglect and out-of-home care for low and moderate risk families that have come to the attention of the Departments of Social Services. The Program links families to community service providers in order to address issues such as child safety, employment, housing, domestic violence, child support, education, and transportation. Family Ties provides case management services for these families for a period of 3-6 months to reduce issues and behaviors that result in repeat CPS reports and/or foster care placements, connect families to services and improve family functioning. Family Ties will also provide a Family Team Meeting Specialist to conduct family team

meetings (FTM's) for all youth who enter community-based foster care. A FTM will be conducted and completed within the first 21 days of placement. The Family Team Meeting Specialist is essential in our Partnership 4 Permanency (P4P), a nonprofit organization that bridges opportunity gaps for young people entering adulthood from the child welfare system, seeking to reduce the length of stay in foster care and achieve permanency for children in the quickest, safest manner.

This contract serves a public purpose because it promotes healthy families and reduces the risk of children entering foster care. Family Ties uses the family unity model to strengthen families and to address dysfunction and mal-adaptation in family systems that place children at risk of out-of-home placements.

The goals and objectives of this agreement is to provide short term, preventive and follow-up services addressing the needs of low and moderate risk families that have come to the attention of Child Protective Services or the Cross Systems Unit. The primary goal is to reduce and prevent family dissolution and substitute care for children. Secondary goals are to address family system dysfunction that places children at risk of abuse and maltreatment.

The goals and objectives of this Agreement are in the best interest of the County in terms of public health because the services provided address specific family systems issues that place children at risk of abuse and maltreatment. Families are guided through services, activities and trainings to inspire them to practice alternative ways of parenting, coping and managing their environments. Parents that adopt healthier lifestyles are often better prepared to parent healthier children.

The goals and objectives of this agreement are in the best interest of the County in terms of public safety as the program reduces the recidivism rate of CPS intervention and improves family functioning as well as provide a resource for the families even after their case is closed. Services through the program address family system dysfunctions, which without intervention, would lead to further abuse and maltreatment of children.

The goals and objectives of this agreement are in the best interest of the County in terms of fiscal responsibility in that the Department is able to avert temporary and permanent substitute care of children and the costs associated with such placements. Preventing substitute care can result in substantial savings for the County and its taxpayers.

The goals and objectives will be tracked and monitored to verify process, outcome and impact of performance measures as will be indicated in the contractual agreement. Goals and objectives will also be tracked, monitored and verified through periodic reports submitted. The Department of Social Services will also verify goals and objectives through periodic site visits.

Based on the Performance Measurement Indicators, the Department can report that from January 1, 2025, through September 30, 2025. Family Ties has served 20 unduplicated families.

The program continues to demonstrate strong outcomes: 100% of youth receiving services were successfully diverted from foster care placement, and 95% of families did not experience any repeated, subsequent, or initial CPS investigations while engaged with the program. EKC remains committed to completing its hiring efforts for a second Spanish-speaking Case Planner to ensure full staffing. DSS will continue working with EKC as this program has demonstrated that families who participate in their program curriculum do not experience recidivism with the Department making the program successful. EKC is one of the Child Welfare Programs that receives a surplus of referrals due to the parenting training models used (General parenting training and the Evidence Based Triple P model). This provider is one of the few Programs that do not need an open service case (FSS-Family Service Stage) to serve families that utilize community services without DSS involvement.

The procurement of this agreement is exempt from the application of the Westchester County Procurement Policy and Procedures pursuant to Section 3(a) xviii thereof, which exempts contracts for the creation and support of recreation projects and other appropriate programs for the prevention of delinquency and youth crime and the advancement of the well-being of the youth of Westchester County.

Accordingly, the County of Westchester is hereby requesting authority to enter into an agreement with Family Ties of Westchester, Inc. for the aforesaid purpose.

An appropriate resolution requesting your Honorable Board's approval is attached herewith.
