Infrastructure Improvements for Gas Main Extension  
Westchester County Airport  
Towns of Harrison and North Castle and Village of Rye Brook, New York

The 2026 Capital Budget contains funds for the above referenced project.

The work under this contract consists of providing all the labor, materials, and equipment required for the installation of a new gas main service to the north complex at the Westchester County Airport, and associated work.

In accordance with Chapter 635 of the Laws of Westchester County, the Department of Public Works and Transportation has evaluated the needs of this project and determined that a Project Labor Agreement ("PLA") will benefit and enhance the interests of the County in the timely and efficient completion of the project. The Contractor to whom this contract is awarded will be required to execute a PLA.

The objective of this project is to extend natural gas to existing Airport hangars and buildings enabling the conversion of heating and boiler systems from fuel oil to cleaner-burning natural gas, thereby reducing carbon emissions.
