Amount: \$22,450,000.00

On December 17, 2025, the County of Westchester ("County") received and opened three (3) bids for Contract No. 20-535 for New Relief Sewer, Saw Mill Section B Sanitary Trunk Sewer, Saw Mill Sanitary Sewer District, Town of New Castle, New York.

The bids were reviewed by the Department of Public Works and Transportation ("Department") and it was determined that CRS Contractors Inc. submitted the low bid in the amount of \$22,450,000.00.

The low bidder has been investigated and it has been found that CRS Contractors Inc.:

 Operating Budget

The objective of this contract is to provide a permanent relief sewer to handle all existing and future sewer flow in the District. The upstream sections of the Saw Mill Trunk Sewer are 30-inch in diameter before they discharge and terminate into the existing 24-inch diameter segments of the B Trunk Sewer. The total length of the seven existing segments is approximately 2,050 feet. Although the existing 24-inch diameter pipe is currently handling the existing flow, these seven segments of sewer are undersized to handle all future flows that are held in reserve for parcels in the Town of New Castle that are in the District, but not currently connected to the sewer, as well as flow held in reserve for the Village of Mount Kisco.

This contract will benefit the public as it will ensure that the operations are safe, environmentally compliant and in line with best management practices, thereby enhancing the health and general welfare of the residents of Westchester County.

The Department will track scheduling and accomplishments by the contractor and perform on-site inspections to ensure the successful completion of this project.

It is my recommendation that Contract No. 20-535 be awarded to CRS Contractors Inc. in the amount of \$22,450,000.00.
